Technical Director

Note:

Potency assays performed on the same harvest batch of fruits with varying states of age as present in batch to represent the potency. *For Research, Forensic, and Harm Reduction Purposes

*Instrument Calibration performed using DEA exempt certified reference materials

*Extracts are prepared in concentrations within DEA exemption limits

*Samples are immediately rendered unusable upon completion of assay

*Results are reported as percent by weight and milligram's of compound per grams of sample

*<LOQ means "Below Limit of Quantitation", meaning the analyte was detected, but at levels below the threshold of quantitation.
